

SYSTEM, METHOD, AND COMPUTER PROGRAM PRODUCT  
FOR DISTRIBUTED TESTING OF PROGRAM CODE

ABSTRACT OF THE DISCLOSURE

5           A system, method, and computer program product for  
distributed software code testing. When a data processing  
system is not being actively used, it will download and  
execute test code, and return the results to a server.  
This process increases the efficiency of code testing while  
10           exploiting otherwise-wasted processing power.
